- Carrying water on your head can cause neck injuries.
T F DNS
- With the Hippo-Roller people can carry more water than with a normal bucket.
T F DNS

1 Hippo-Roller, photo _____

Many women and children in Africa spend between three and nine hours a day carrying water to their homes. They use 20-litre plastic buckets, which they carry on their heads. The buckets are very heavy and often cause back and neck injuries. So engineers Pettie Petzer and Johan Jonker designed a 'rolling wheel' which can carry ninety litres of water and is much easier to move. 33,000 'Hippo-Rollers' have been made and delivered to remote villages in Africa. The results are good: women have more time to look after their families, the children have more time at school, and there are fewer injuries.

2 LifeStraw, photo _____

There are 780 million people in the world who don't have clean safe drinking water. This fact led the Swiss company Vestergaard to invent a special kind of straw that allows people to drink dirty water without getting ill. The LifeStraw is a long thin tube that cleans the water as it passes through into somebody's mouth. LifeStraw is very light and can clean up to 1,000 litres of water before you need to replace it. LifeStraw was used to help people after the Haiti earthquake, and floods in Pakistan and Thailand.

3 AidPod, photo _____

When Simon Berry was travelling in Zambia, he noticed that he could buy Coca-Cola in the remotest villages. But in these same villages the people had no medicines and, because of that, one in five children were dying before their fifth birthday. He had an idea. 'Why don't they bring medicines when they deliver the Coca-Cola?' So he invented the AidPod, a triangular packet of medicines that fits between the bottles in a crate of Coca-Cola. Berry has experimented with a number of designs for his AidPod and is testing his ideas in Zambia. If his plan works, he hopes to do the same thing in other African countries, and save thousands of lives.

Dear Sir or Madam,

I am writing to complain about the decision to stop the free bike hire scheme in our town. This scheme has been very popular, especially among young people, and I cannot understand why the council wants to stop it.

I object to the decision mainly because the bike hire scheme encourages people to cycle ¹ _____ going by car or bus. ² _____ cycling is good for the environment and good for people's health, we want as many people as possible to do it.

I understand that there have been some problems with vandalism. However, I do not think a small number of vandals should be able to change the council's policy. Surely it is possible to install security cameras, ³ _____ the bikes are not damaged so often.

In conclusion, I believe the bike hire scheme benefits the environment and the residents, and should continue.

Yours faithfully,
